The parent of the above-identified patent application, i.e., U.S. Patent Application Serial No. 09/741,525, was subjected to a Restriction Requirement by Examiner Thien F. Tran in Paper No. 7 of the parent application mailed October 22, 2002.

Claim 1, claims 15-18, and claim 20 of the present divisional application respectively correspond to unelected claim 15, claims 49-52, and claim 53 of the parent application. Applicant contends that the remaining claims of the present divisional application comport with the subject matter of unelected claim 15, claims 49-52, and claim 53 of the parent application. Applicant further contends that all claims find support in the original priority document as filed. Applicant thus contends that the present claims do not constitute new matter.

Respectfully submitted,

Date: 05-19-04
